

Workshare® Compare

Advanced PDF and Document Comparison

TOP NEW FEATURES

- Compare PDF or Word documents against multiple modified versions
- Compare embedded Excel tables
- Compare embedded objects and images
- Integrate with Workshare OCR Server for image-based document comparison
- Save redlines as Word, PDF, Track Changes, or DeltaView format
- Document management system integration included

Workshare Compare provides PDF and document comparison capabilities and streamlines your document review process making it easier to collaborate and identify document changes.

Compare documents for changes and accuracy

Compare PDF or Word documents against multiple modified versions or revisions within context of one another. From the creators of DeltaView, Workshare Compare utilizes an industry - leading document comparison engine to excel at long and complex documents as well as comparing auto-numbered paragraphs, font changes, and complicated formatting, even in tables.

Leverage multiple comparison interfaces

Compare email attachments directly from an email application, utilize the standalone document comparison tool from the desktop without launching Microsoft Word, or work within Microsoft Word to compare documents without having to learn a new software application.

Microsoft Outlook users are able to leverage the "Compare Attachment with Workshare" button that is conveniently displayed at the bottom of each email.

Compare one document to multiple versions

Compare more than two documents at one time including comparing Word-to-Word, PDF-to-PDF, Word-to-PDF. The 3-pane view automatically highlights differences for easy identification of what has changed.

Email and share redlines

Implement changes shown in the redline document using Microsoft Word Track Changes, email redlines with all changes converted to Microsoft Track Changes, or save redlines as a PDF document. Customize and control rendering sets to identify who made what changes during a document review.

Extend your document management system

Extend document management with advanced document comparison technology. Workshare Compare integrates easily with document management systems to accurately manage document changes

Top Features and Benefits

Advanced document comparison

Compare Word documents against multiple modified versions or revisions within context of one another. Workshare Compare utilizes an industry - leading document comparison engine to excel at long and complex documents as well as comparing auto-numbered paragraphs, font changes, and complicated formatting, even in tables.

Compare PDF's

Compare the differences between two versions of a PDF document with changes automatically highlighted, including text, and images.

Compare one document to multiple versions

Compare more than two documents at one time including comparing Word-to-Word, PDF-to-PDF, Word-to-PDF.

Comparison of embedded Excel tables

Accurately compare Microsoft Excel tables that are embedded in Microsoft Word documents.

Embedded object and image comparison

Identify changes to embedded objects or images. The change will be highlighted when there has been a modification, deletion, or insertion.

Convert and compare image-based documents

Convert and compare scanned documents, images, and faxes when used with the Workshare OCR Server.

Accurate change tracking

Accurately compare complex documents (100+ pages) at the paragraph, line, character, and word level.

Multiple comparison interfaces

Compare email attachments directly from your email application, utilize the standalone document comparison tool from the desktop without launching Microsoft Word, or work within Microsoft Word to compare documents without having to learn a new software application.

Save comparisons

Save the comparison as a Workshare Compare DeltaFile (.wdf), which contains all three documents (original, modified and redline). You can also save just the redline document as a DOC/DOCX, RTF, HTML, TXT, or PDF file.

Synchronized 3-pane view

A synchronized 3-pane view allows you to view changes from multiple documents at the same time.

Document redlining made simple

Customize and control rendering sets, implement changes shown in the redline document using Microsoft Word Track Changes, email redlines with all changes converted to Microsoft Track Changes, or save redlines as a PDF document.

Integrated with Microsoft Outlook

When you receive an email with a DOC, DOCX, or RTF attachment, the "Compare Attachment with Workshare" button is conveniently displayed at the bottom of the email.

Secure, open XML document exchange

Interoperability and compatibility between Office 2007 and previous Office version file formats ensure business continuity and reduced support costs regardless of the file format version used and exchanged.

SYSTEM REQUIREMENTS

Operating Environments:

- Microsoft Windows Vista
- Microsoft Windows XP
- Citrix Metaframe XP FR3
- Citrix Presentation Server 4.0, 4.5

Microsoft Office System:

- 2007 Microsoft Office System
- Microsoft Office 2003, XP

Email Systems:

- Microsoft Outlook 2007, 2003, XP
- Lotus Notes

Recommended:

- Windows XP SP3 / Vista SP1
- Intel Core 2 DUO @ 2.2GHz
- AMD Athlon 64 X2 4400+
- 2.0 GB RAM
- 2GB free disk space

Minimum:

- Windows XP SP2
- Windows Vista SP1
- P4 2.8 GHz+ Pentium processor (XP)
- P4 3.2 GHz+ Pentium processor (Vista)
- 1.0 GB RAM (XP)
- 1.5 GB RAM (Vista)
- 800MB free disk space

Document Management System Support:

- Microsoft SharePoint 2007
- Autonomy Interwoven
- Open Text / Hummingbird
- EMC Documentum
- Oracle
- Worldox
- NetDocuments
